The kind treatment bestowed upon Hobson and his men was not as kind after all as it might have been. But for the protest of the British Consul, he might have been kept in solitary confinement all the time he was a prisoner. The inclination of Gen. Linares was to treat him as a common criminal.

There is good authority for the statement that Spain is willing to make peace upon the following general conditions: 1. The surrender of Cuba as a protectorate of the United States. 2. The unconditional surrender of Porto Rico as a war indemnity. 3. The reference of the war to a court of international arbitration.

RELIABILITY

is a quality some newspapers have lost sight of in these days of "yellow" journalism. They care little for truth and a great deal for temporary sensation.

It is not so with THE CHICAGO RECORD.

The success of THE RECORD rests upon its reliability. It prints the news-all the news-and tells the truth about it.

It is the only American newspaper outside New York city that has its own exclusive dispatch boat service and its own staff correspondents and artists at the front in both hemispheres.

It is the best illustrated daily newspaper in the world. Its war news service is unapproachably the best. Says the Urbana (III.) Daily Courier:

"We read the war news in the other papers, then we turn to THE CHICAGO RECORD to see how much of it is true."
